公司简介

COMPANY PROFILE

COMPANY

Established in 2012, Carbonss Tuning is a professional manufacturer and exporter that is concerned with the design, development and production of car carbon tuning parts. We are located in Guangzhou, with convenient transportation access. All of our products comply with international quality standards and are greatly appreciated in a variety of different markets throughout the world.

As a result of our high quality products and outstanding customer service, we have gained a global sales network reaching USA, Europe, South Africa, South East Asia and well appreciated by their purchasers. If you are interested in any of our products or would like to discuss a custom order, pls feel free to contact us. We are looking forward to forming successful business relationships with new clients around the world in the near future.

OUR TECHNOLOGY

We have wet carbon and dry carbon for choose, wet carbon parts are producing in a Lay-up vacuum infusion process, use peel ply with vacuum bagging to reduce resin content, it achieve lighter weight than the traditional hand lay-up FRP+ carbon process. In addition, our dry carbon technology is more and more mature, pre-preg carbon material with autoclave creating a dramatic weight advantage and great rigidity, - metal mold will avoid deformation in long term use so as to ensure products fitment.

OUR SERVICES

We had set up a set of strict standard quality control systems to avoid bubbles, dust in UV coat, atactic weave, crack and scratch. We purchase original trunk, front and rear bumper to test the fitment, we also test on car to ensure good fitment. Besides, we had improve our carton to avoid damage on the shipping while not increasing shipping cost. We do these to ensure you got the items in good condition. If you have any question or problem after you got the items, contact us to get a good after service.

OUR MAIN PRODUCTS

Carbon Tuning Products, especial for Germany car model like BMW, Mercedes-Benz, Audi, VW and so on. Products including carbon trunk spoiler, carbon front lip, carbon rear diffuser, carbon side skirts, carbon mirror cover, carbon splitter corner, carbon front grille and some carbon interior trims. Your OEM & ODM orders are welcome.
